

## Summer Camps

### Copy that Cake

Student bakers will attempt to recreate cakes & cupcakes in a friendly food competition. Chef Paul Farmelo will assist participants with the making and baking of the cakes & cupcakes, and participants will use their creativity for decorating.

**Dates:** June 15, 2022

**Location:** Seneca Highlands CTC Culinary Arts Classroom

**Cost:** \$15

### Minecraft

During this four-day program, participants will learn to program blocks with the Minecraft environment, construct in-world structures as part of daily competitions, and of course play a lot of Minecraft with other campers.

**Dates:** June 20 - 23, 2022

**Location:** Seneca Highlands CTC Networking Classroom

**Cost:** \$40

### Video Games, Gamers, and Gaming

This camp will introduce learners to the many elements of video games. We will focus on gaming industry history, game development processes, game genres, storyboarding, game environment, character design, interface design, game play, and the psychology of game design.

**Dates:** July 11 - 14, 2022

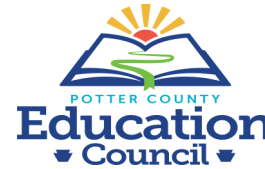

**Location:** Seneca Highlands CTC Networking Classroom

**Cost:** \$60

**Camps are held from 9 a.m. to 3 p.m. and are for students entering grades 5 - 9.**

**For more information or to register: call the Port Allegany office at 814-545-1333 or visit our website ~ [www.pottercountyedcouncil.org](http://www.pottercountyedcouncil.org).**

**These camps are made possible by generous donations through EITC funds.**

## Circuits, Tech, and Beyond

During this 4-day camp, use your very own Arduino Kit to learn the basics of programming, coding, and electronics (to include current, voltage and digital logic). See how to apply these concepts during company tours to local manufacturers.

**Dates:** July 18 - 21, 2022

**Cost:** \$50

**Location:** Seneca Highlands CTC Networking Classroom

The camp is a collaboration between the Community Education Council, PCEC, and the Northern PA Regional College. The camp is partially funded by a grant from the NBT Foundation and the PMMI Foundation.

## Air Force Academy CyberCamp

Air Force Academy CyberCamps are designed for high school and middle school students who are just getting into cybersecurity or who have cybersecurity knowledge and want to learn more!

**Dates:** July 25 - 29, 2022

**Location:** Seneca Highlands CTC Networking Classroom

**Cost:** \$60

## Video Game Design and Intro to Drones

At this 4-day camp, campers will learn about video game creation using Kodu Game Lab. They will create their own games from the ground up and play them with other campers. They will learn what goes into all aspects of game creation from game features to landscapes and scoring, and variables.

Campers will also be introduced to drone operation and programming using DJI Tello Drones and Drone Blocks Coding App. Campers will learn to operate drones manually and automatically, capture photos and video, and process and edit what it collected. To top it off, campers will help to create a flight plan for a professional drone that will be flown on a video mission!

**Dates:** July 25 - 28, 2022

**Location:** Coudersport Elementary School

**Cost:** \$40
