

## ALUMNI OF THE MONTH

**Name:** Andrew Rosenswie

**Year of Graduation:** 2016

### **What have you done since graduating from Port Allegany High School?**

Since graduating from Port Allegany High School, I have been working and studying all across North America and Europe. I have received my Bachelor of Science from the Pennsylvania State University in Astrophysics & Astronomy, and I am presently achieving my Master's of Science in Astrophysics at Potsdam University.

No matter where I am on the Earth, I still call Port Allegany my home.

### **Where do you currently live?**

Potsdam, Germany

### **Who was your favorite teacher in high school? Why were they your favorite?**

My favorite teacher in high school was Mr. Finn.

After learning how the natural world works from his class, it inspired me in multiple ways, ranging from conducting research to problem solving.

### **What is your fondest memory of Port Allegany High School?**

My fondest memory at Port Allegany High School was being a part of Academic Team, lead by Mr. Clark, and going to the various musical festivals with Mr. Myers and Mr. Stuart.

The combinations of these three events have impacted how I view the World, and how to enjoy what it has to offer.
