

ALUMNI OF THE MONTH

Name: Brookens, Tammy

Year of Graduation: 1982

What have you done since graduating from Port Allegany High School?

Originally from Pennsylvania, Tammy's passion for architecture led her to graduate college in Pittsburgh and work as an Architectural Designer. Later, she spent 20 years in Atlanta, where she became a renowned Residential Builder of custom homes. Tammy's expertise did not stop there - she also holds certifications as an SBCCI/IRC Residential inspector and Signature Builder in Georgia.

Intriguingly, when the housing market collapsed and Tammy moved to Florida, she seamlessly transitioned into construction sales. Her attention to detail and organizational skills have made her a valuable asset in handling commercial, multi-family projects, and residential subdivisions. Customer satisfaction is always at the forefront of her mind, ensuring top-notch service and follow-through.

Outside of work, Tammy's adventurous spirit takes her on exciting travels, particularly snorkeling adventures. Exploring marine life and swimming with stingrays, turtles, sharks, tarpon, manatees, and more, truly brings her joy. She also enjoys kayaking, boating, and embracing the beach life.

Where do you currently live?

Pensacola, Florida

Who was your favorite teacher in high school? Why were they your favorite?

Mr. J.R. Mack. He worked well with students, was very patient, had a great sense of humor, and was an outstanding teacher.

What is your fondest memory of Port Allegany High School?

I enjoyed participating in team sports.
